GENERAL SEMINAR)

Tarih (Date): 26.05.2016, Perşembe (Thursday)

Saat (Time): 11:00

Yer (Place): Yaşar Ataman Seminer Salonu

Konuşmacı (Speaker): Prof. Pratulananda Das (Jadavpur University, India)

Başlık (Title): Certain Types of Open Covers and Selection Principles Using Ideals

Özet (Abstract):

In this note we make a new and very general approach to the study of open covers and selection principles by using the very general notion of ideals and investigate some of its consequences. Our results present a more general form of some very recent statistical variants of open covers and related selection principles introduced by Di Maio and Kocinac.
